	Page 252		Page 254
1	exact number.	1	Q. The very first sentence says, "The most
2	Q. What percentage of women with Lynch	2	important risk factor other than age is a family
3	syndrome will get ovarian cancer?	3	history of breast or ovarian cancer, some of which
4	A. It's increased over the general	4	is related to certain inherited gene mutations."
5	population. I don't know the exact number.	5	MS. O'DELL: Hey, Jessica, I'm sorry,
6	Q. What percentage of women who use talc	6	there's some background noise on your end.
7	will get ovarian cancer?	7	Is somebody doing the dishes or something?
8	A. Their increased risk is approximately	8	MS. DAVIDSON: I'm going to move to
9	30 to 60 percent.	9	another room. Okay.
10	Q. But that doesn't mean that 30 to	10	BY MS. DAVIDSON:
11	60 percent will get ovarian cancer, does it?	11	Q. So where we were was we were looking at
12	A. No.	12	this first sentence and it says, "The most
13	Q. Do you have an estimate of what	13	important risk factor other than age is a family
14	percentage of women who use talc in the genital	14	history of breast or ovarian cancer, some of which
15	area in your opinion will get ovarian cancer?	15	is related to certain inherited gene mutations."
16	MS. O'DELL: Object to the form.	16	I'm trying to understand whether you
17	THE WITNESS: They're at increased	17	agree or disagree with that statement?
18	risk.	18	A. I agree with that statement.
19	BY MS. DAVIDSON:	19	Q. "Other medical conditions and
20	Q. That wasn't my question?	20	characteristics associated with increased risk
21	A. Could you repeat the question, please.	21	include a personal history of breast cancer,
22	Q. You said that 20 percent of women with	22	endometriosis, or pelvic inflammatory disease, and
23	BRCA1 mutation would get ovarian cancer. I'm	23	tall adult height."
24	asking you what percentage of women who use talc in	24	Do you agree with that sentence?
25	a genital area will get ovarian cancer?	25	A. Not aware of the tall adult height
	Page 253		Page 255
1	MS. O'DELL: Object to the form. I	1	being a risk factor. The others I would agree

And, Jessica, if you're going to go over old ground, we just have to fight this battle. I wish we didn't. But I'll allow him to answer this question, but we're not going to retread the old stuff we've already I think we've got an agreement on that and I hope we can keep it.  If you could answer the question.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	just want to make sure that's still your opinion.  MS. O'DELL: And would you please direct us to page and line so he can see the testimony to make sure it's in context.  MS. DAVIDSON: Sure 458/17. Asher, you want to put it on the screen. We can mark it as an exhibit. I think we're on to Exhibit  MR. TRANGLE: 22.  MS. DAVIDSON: 22.  MS. O'DELL: 458, is that what you said?  MS. DAVIDSON: Yeah. Asher will put it on the screen.  MS. O'DELL: It's okay. I can give it to him. 458, what line?  MS. DAVIDSON: Asher is putting it up.  MS. O'DELL: It's okay. I would just like the line. I've got the hard copy here.  MS. DAVIDSON: It's line 17. You'll see it.  MR. TRANGLE: Can you see it here? I

	Page 288		Page 290
1	MS. DAVIDSON: Enough.	1	So I believe in 2021 you testified that
2	BY MS. DAVIDSON:	2	the Terry study supported your opinion that talcum
3	Q. Dr. Clarke-Pearson, were you in the	3	powder use can cause clear cell carcinoma, and
4	middle excuse me. Doctor	4	there might be another study, but you couldn't
5	MS O'DELL: Be respectful.	5	remember it at the time.
6	MS. DAVIDSON: No, you're not being	6	I'm wondering if other than Terry, are
7	respectful, Leigh.	7	you relying on any other studies for your clear
8	MS. O'DELL: I am.	8	cell causation opinion at this point?
9	MS. DAVIDSON: Dr. Clarke-Pearson	9	MS. O'DELL: Is there a specific let
10	excuse me, Leigh.	10	me just make sure I understand the question.
11	BY MS. DAVIDSON:	11	Are you taking aback his 2021 deposition, or
12	Q. Dr. Clarke-Pearson, were you in the	12	you talking about when you asked that
13	middle of an answer?	13	question?
14	A. I believe I gave you the answer that I	14	BY MS. DAVIDSON:
15	wanted to give you. If you'd like to repeat the	15	Q. Dr. Clarke-Pearson, do you recall
16	question.	16	testifying in 2021 that you were relying on Terry
17	MS. DAVIDSON: Let's start again.	17	for your causation opinion with respect to clear
18	Court reporter, can you repeat the question.	18	cell carcinoma?
19	(The reporter read back the last question.)	19	A. Yes. Terry includes eight other
20	MS. O'DELL: Object to the form.	20	studies in copy when he pools that data that
21	THE WITNESS: Could you read my answer	21	supports that talcum powder causes clear cell
22	then?	22	carcinoma.
23	(The reporter read back the last answer.)	23	Q. Are you relying on any papers other
24	BY MS. DAVIDSON:	24	than Terry with respect to your clear cell opinion?
25	Q. So, Dr. Clarke-Pearson, what other	25	A. I think I'll stick with Terry. Thank
1	Page 289		Page 291
1	things are you referring to there?	1	you.
2	A. In general, it would be the risk	2	Q. Since 2021, have you gone back to look
1 2	factors that we've been talking off and on	<b>)</b>	-4
3	_	3	at any of the epidemiology related to clear cell
4	throughout this deposition so far.	4	carcinoma?
4 5	throughout this deposition so far. Q. We're talking about Ms. Converse;	4 5	carcinoma? A. I mean
4 5 6	throughout this deposition so far.  Q. We're talking about Ms. Converse; right?	4 5 6	carcinoma?  A. I mean  MS. O'DELL: Object to the form.
4 5 6 7	throughout this deposition so far.  Q. We're talking about Ms. Converse; right?  A. Yes.	4 5 6 7	carcinoma?  A. I mean  MS. O'DELL: Object to the form.  THE WITNESS: I've looked at Terry. I
4 5 6 7 8	throughout this deposition so far.  Q. We're talking about Ms. Converse; right?  A. Yes.  Q. So you mean Ms. Converse's risk	4 5 6 7 8	carcinoma?  A. I mean  MS. O'DELL: Object to the form.  THE WITNESS: I've looked at Terry. I mean, that's what I'm relying on.
4 5 6 7 8 9	throughout this deposition so far.  Q. We're talking about Ms. Converse; right?  A. Yes. Q. So you mean Ms. Converse's risk factors?	4 5 6 7 8 9	carcinoma?  A. I mean MS. O'DELL: Object to the form. THE WITNESS: I've looked at Terry. I mean, that's what I'm relying on. BY MS. DAVIDSON:
4 5 6 7 8 9 10	throughout this deposition so far.  Q. We're talking about Ms. Converse; right?  A. Yes. Q. So you mean Ms. Converse's risk factors?  A. If we're specifically talking about	4 5 6 7 8 9	carcinoma?  A. I mean MS. O'DELL: Object to the form. THE WITNESS: I've looked at Terry. I mean, that's what I'm relying on. BY MS. DAVIDSON: Q. Have you looked since 2021 at any of
4 5 6 7 8 9 10 11	throughout this deposition so far.  Q. We're talking about Ms. Converse; right?  A. Yes. Q. So you mean Ms. Converse's risk factors?  A. 1	BY MS. DAVIDSON:	l	medical record. Have you done that math?
2	Q. Dr. Clarke-Pearson, Ms. Newsome was	2	Q. We have multiple medical records
3	diagnosed with ovarian cancer in March 2015; right?	3	showing Doctor. If you
4	A. Yes.	4	would like to do the math, you're welcome to.
5	Q. If we could turn to this medical record	5	MS. O'DELL: Object.
6	from	6	THE WITNESS: That's what I'd like to
	- excuse me, Leigh.	7	do.
8	MS. O'DELL: We haven't opened it yet,	8	Why can't I find
9	SO	9	MS. DAVIDSON: You could just go on the
10	MS. DAVIDSON: It's right on the	10	Internet, there's a thousand BMI
11	screen, Leigh. Please don't interrupt me.	11	calculators, unfortunately for those of
12	Please stop interrupting me. You've been	12	us
13	interrupting me all day.	13	THE WITNESS: All right.
14	MS. O'DELL: That's not true.	14	BY MS. DAVIDSON:
15	BY MS. DAVIDSON:	15	Q. According to AARP it's 30.1. So
16	Q. Dr. Clarke-Pearson	16	actually they underestimated it. According to the
17	MS. O'DELL: Let us open it.	17	AARP BMI calculator, which I just went online and
18	MS. DAVIDSON: You can open it. But	18	did, 5-foot-3 and 171 pounds is a BMI of 30.1,
19	stop interrupting me.	19	Doctor.
20	BY MS. DAVIDSON:	20	A. Well, I'm having trouble with my
21	Q. Dr. Clarke-Pearson, this medical record	21	calculator. So if you think that's the correct
22	. Do you see that?	22	thing, then your question is would I correct my
23	MS. O'DELL: Just wait,	23	report, and I would say yes.
24	Dr. Clarke-Pearson, until you've had a	24	Q. Is there a reason why you didn't
25	chance to look at the document.	25	correct this after this was pointed out to you in
	Page 313		Page 315
1	THE WITNESS: Take a look at it and	1	2021?
2	calculate for myself.	2	MS. O'DELL: Object to the form.
3	Sorry. I'm trying to find a BMI	3	THE WITNESS: I wasn't aware that that
4	calculator on my phone here.	4	was pointed out to me.
5	BY MS. DAVIDSON:	5	BY MS. DAVIDSON:
6	Q. Dr. Clarke-Pearson, my question was not	6	Q. Okay.
7	how you calculate her BMI. My question does this	7	A. I don't recall that.
8	medical record ?	8	Q. Was obesity a risk factor for
9	MS. O'DELL: He will answer your	9	Ms. Newsome?
10	question when he's ready to do so. Don't	10	MS. O'DELL: Object to the form.
11	rush him, please.	11	THE WITNESS: If her BMI is over 30,
12	MS. DAVIDSON: Oh, my God, Leigh.	12	then she's considered obese. And there's
13	THE WITNESS: I'm trying to see. It	13	literature that suggests that obesity
14		13	doesn't really increase the risk unless the
15	says is	15	patient is severely obese, in other words, a
	what it says. BY MS. DAVIDSON:	16	•
16			BMI of over 40. That's reported by IARC as
17	Q. Is that inconsistent with your	17	one reference.
18	statement in the report that	18	BY MS. DAVIDSON:
20	?	19	Q. Is it your testimony that the
20	A. Yes.	20	literature has not found an increased risk for
21	Q. Is ?	21	endometrioid cancer for obesity with a BMI between
22	A. Yes.	22	30 and 34?
22			MAY (MINELL) (Deport to the form
23	Q. Is this an error in your report?	23	MS. O'DELL: Object to the form.
23 24 25	A. That's why I want to calculate it. I may have calculated it may be an error in the	<ul><li>23</li><li>24</li><li>25</li></ul>	THE WITNESS: Let me take a look at one reference, if I could.

	Page 320		Page 322
1	It's my recollection that I looked at	1	mean, I didn't re-review them since 2021.
2	some records that	2	Q. The two you identified in 2021 were
	. And according to this paper that	3	Schildkraut and Penninkilampi. Are there any
4	you have on the screen here, if her BMI is	4	others you would identify today?
5	less than 30, she does not have a	5	A. I will have to go back and go through
6	significant increased risk of developing	6	my notes and records, and I can send that to you.
7	ovarian endometrioid ovarian cancer.	7	Q. Okay. You can send that to us. But
8	BY MS. DAVIDSON:	8	I'll ask for those after the deposition.
9	Q. Assuming that we are correct and the	9	But are there any others you would
10	medical records are correct, there are multiple	10	identify sitting here today?
11	medical records, I can show them to you,	11	A. Not off the top of my head here today.
	, did that put her at an increased	12	Q. Do you know who wrote the Health Canada
13	of endometrioid cancer?	13	risk assessment.
14	MS. O'DELL: Object to the form. Asked	14	A. I don't. I can look and see if there's
15	and answered. Misstates the record.	15	an author list. I have it here with me.
16	THE WITNESS: Based on this table, she	16	Q. Is Ms. Newsome cancer-free?
17	has a slightly increased risk of developing	17	MS. O'DELL: He's trying to respond to
18	ovarian cancer.	18	your question.
19	BY MS. DAVIDSON:	19	BY MS. DAVIDSON:
20	Q. Do you consider 1.37 to be a slightly	20	Q. I thought he answered. He didn't know
21	increased risk?	21	and he would look.
22	A. It's an increased risk.	22	A. I'm looking right now.
23	Q. How would you characterize 1.37 in	23	Q. Okay.
24	terms of slight, weak?	24	A. I don't to answer your question, I
25	A. I'm not going to quantify it by slight,	25	don't know who specifically wrote it. Whether it

1	Page 328 30 is not 30.0 is not what I'm trying to say or	1	Q. Okay. And does Penninkilampi show
2	is not what I've been trying to say. That's	2	what's the increased risk for Ms. Converse's level
3	that's a ballpark number.	3	of use for clear cell carcinoma in Penninkilampi?
4	Q. Okay. Is this did you change your	4	A. I don't think Penninkilampi
5	opinion in our last break?	5	specifically looks at clear cell.
6	A. No. It just came to my mind that these	6	Q. So what are you
7	women are women that are using a lot more talcum	7	MS. O'DELL: Excuse me. If you need to
8	powder than a lot of other epidemiological studies	8	see a paper, Dr. Clarke-Pearson, just feel
9	reported.	9	free to put it you know, we can get it in
10	Q. When did this come to your mind?	10	front of you.
11	A. At the break.	11	BY MS. DAVIDSON:
12	Q. So you've been on this case for five	12	Q. So, Dr. Clarke-Pearson, what are you
13	years and it came to the mind at the last break	13	relying on for your new opinion that you formulated
14	that you wanted to change your opinion?	14	in the middle of this deposition that
15	MS. O'DELL: Objection to the form.	15	Ms. Converse's quote/unquote heavy use of talcum
16	Misstates his testimony.	16	powder increased her risk more than 30 percent?
17	THE WITNESS: Yes.	17	MS. O'DELL: Object to the form.
18	BY MS. DAVIDSON:	18	Misstates his testimony.
19	Q. Well, then we'll have to go back to	19	THE WITNESS: If I can pull
20	Ms. Converse. Did you talk to Ms. O'Dell during	20	Penninkilampi paper and look at it, I can
21	the break, Dr. Clarke-Pearson?	21	give you some more specifics.
22	A. No, I didn't. I went to the bathroom.	22	MS. DAVIDSON: Okay. Let's go off the
23	Q. And in the bathroom you had an epiphany	23	record for you to do that.
24	that you wanted to change your specific causation	24	MS. O'DELL: I've got it right here for
25	opinion with respect to all three plaintiffs?	25	him.
	Page 329		Page 331
1	MS. O'DELL: Object to the form.	1	MS. DAVIDSON: We just got a new
2	Misstates his testimony.	2	opinion in the middle of this deposition
3	THE WITNESS: I don't think I had an	3	and
4	epiphany. It just when I thought about	4	MS. O'DELL: It's not a new opinion.
5	it, it just came to me like these are	5	MS. DAVIDSON: Oh, come on.
6	women these three women have used talcum	6	MS. O'DELL: He's testified extensively
7	powder extensively. And the epidemiologic	7	to Penninkilampi in the past and
8	data says the extensive use does increase	8	MS. DAVIDSON: No. Come on.
9	the risk more than 30 percent.	9	MS. O'DELL: He testified to
10	BY MS. DAVIDSON:	10	Penninkilampi in 2019 as you well know. And
11	Q. And when you're talking about the	11	he's testified to it in I think he
12	epidemiological data, you're just talking about	12	mentioned it in his 2021 deposition. It's
13	Woolen; right?	13	not a new opinion. You look at his dose
14	A. I mean, there's other studies that have	14	response opinion in his report, it's not
15	dose response to them of difference source.	15	MS. DAVIDSON: We're going to go off
16	Q. What studies are you talking about	16	the record while you look at this paper.
17	other than Woolen?	17	MS. O'DELL: I think he's ready to
18	A. I think we've talked about that in	18	answer your questions.
19	other depositions too. I would go to Penninkilampi	19	BY MS. DAVIDSON:
20	for one. Woolen would be another, yes.	20	Q. Dr. Clarke-Pearson, are you ready to
21	Q. Do Penninkilampi and Woolen show	21	answer at this moment?
22	well, let's start with Ms. Converse.	22	A. Not right not at this moment.
23	What subtype does Ms. Converse have?	23	MS. DAVIDSON: Then let's go off the
24	A. Let me just double-check. She has	24	record.
25	clear cell.	25	(Recess taken from 12:22 p.m. until 12:25 p.m.)

1	Page 332		Page 334
	(Exhibit 28 marked for identification.)	1	epithelial ovarian cancers.
2 1	BY MS. DAVIDSON:	2	Q. Are you aware of any paper showing a
3	Q. Where are you taking us, Doctor?	3	42 percent increased risk for endometrioid ovarian
4	A. Table 1. If you look at the length of	4	cancer as a result of genital talc use?
5 1	talc use, long-term less than 3600, greater than	5	MS. O'DELL: I'm sorry, Christine,
1	3600, greater than 3600 pushes the testament to	6	would you repeat that question, please.
	1.42.	7	(The reporter read back the last question.)
8	Q. And is that for clear cell?	8	MS. O'DELL: Object to the form.
9	A. It's for all epithelial ovarian	9	THE WITNESS: No, I'm not.
10	cancers.	10	BY MS. DAVIDSON:
11	Q. Is there any paper that addresses	11	Q. Is Penninkilampi the only paper you're
12	whether heavier use of talcum powder is associated	12	relying on for your 42 percent opinion with respect
13	with a higher risk of clear cell?	13	to both Ms. Newsome and Ms. Converse?
14	MS. O'DELL: Object to the form.	14	A. There are some other papers that I'm
15	THE WITNESS: Not that I'm aware of.	15	aware of that I can't identify for you today.
16	BY MS. DAVIDSON:	16	Q. Do those papers
17	Q. Okay. So sitting here today, what	17	MS. O'DELL: I'm sorry, I don't think
18 1	percentage, you know, I was I was berated for	18	he's finished.
19 :	asking this question because it was covered in	19	THE WITNESS: I'm sorry. I broke up.
20	2021. Now it turns out you actually have a	20	Those papers talk about different sorts of
21	different opinion.	21	use. Penninkilampi is talking about 3600 or
22	Sitting here today, what percentage of	22	more applications. Others talk about
23	Ms. Converse's clear cell ovarian cancer do you	23	duration and frequency. So they vary a
24 8	attribute to talc use?	24	little bit, but they describe heavy use.
25	A. I think I would increase it to	25	BY MS. DAVIDSON:
	Page 333		Page 335
1 4	42 percent based on Penninkilampi's table.	1	Q. Do any of those papers have a
2	Q. Are you basing it on anything else?	2	42 percent risk ratio?
3	A. Not at the moment.	3	A. They have an increase I don't have
4	Q. Are you aware of any epidemiological	4	the number on the top of my head. They have an
	literature finding a 42 percent increased risk	5	increased risk above the 1.3 that we've been
1	between any amount of talcum powder use and the	6	talking about before.
7 (	development of clear cell ovarian cancer?	7	Q. Can I ask you a question? And this is
8	MS. O'DELL: Object to form.	8	just because I'm not a mathematical person.
9	THE WITNESS: No.	9	Is a 42 percent increased risk the same
10	BY MS. DAVIDSON:	10	thing as saying that you're attributing 42 percent
10 .	Q. Okay. Let's go to Ms. Newsome. Now,	11	of the cause to something?
11			
11 12	Ms. Newsome had endometrioid cancer; correct?	12	MS. O'DELL: Object to the form.
11	A. Yes, she did.	13	THE WITNESS: What I'm talking about is
11 12 13 14	<ul><li>A. Yes, she did.</li><li>Q. And, sitting here today, are you able</li></ul>	13 14	THE WITNESS: What I'm talking about is the contribution and the increased risk of
11 12 13 14 15	A. Yes, she did. Q. And, sitting here today, are you able to ascribe a percentage contribution of talc to the	13 14 15	THE WITNESS: What I'm talking about is the contribution and the increased risk of talcum powder exposure over long period of
11 12 13 14 15 16	A. Yes, she did. Q. And, sitting here today, are you able to ascribe a percentage contribution of talc to the cause of her ovarian cancer?	13 14 15 16	THE WITNESS: What I'm talking about is the contribution and the increased risk of talcum powder exposure over long period of time as one of the causes of these women's
11 12 13 14 15 16 17	A. Yes, she did. Q. And, sitting here today, are you able to ascribe a percentage contribution of talc to the cause of her ovarian cancer? A. I would stick with this table from	13 14 15	THE WITNESS: What I'm talking about is the contribution and the increased risk of talcum powder exposure over long period of time as one of the causes of these women's ovarian cancer. Or another way to look at
11 12 13 14 15 16 17 18	A. Yes, she did. Q. And, sitting here today, are you able to ascribe a percentage contribution of talc to the cause of her ovarian cancer? A. I would stick with this table from Penninkilampi that we're talking about and say	13 14 15 16	THE WITNESS: What I'm talking about is the contribution and the increased risk of talcum powder exposure over long period of time as one of the causes of these women's ovarian cancer. Or another way to look at it is it increases her risk by 42 percent.
11 12 13 14 15 16 17 18	A. Yes, she did. Q. And, sitting here today, are you able to ascribe a percentage contribution of talc to the cause of her ovarian cancer? A. But it's really important to understand that increasing your risk by 42 percent does not mean a 42 percent risk; right?

	Page 336		Page 338
1	Q. And that's a common misconception;	1	A. To have one hypothesis on my part would
2	right?	2	be that they wanted to have a consistent group of
3	MS. O'DELL: Object to the form.	3	patients. Some groups may have had more tubal
4	THE WITNESS: I don't know whose	4	ligations. Others may have had less. So to have a
5	conception that is.	5	consistent group of patients. And we also know
6	BY MS. DAVIDSON:	6	that women that have patent tubes are at higher
7	Q. Are you changing your opinion with	7	risk to develop ovarian cancer.
8	respect to Ms. Rausa as well?	8	Mrs. Rausa had patent tubes for a long
9	A. Yes.	9	time before she had her tubes tied and had that
10	Q. And I believe Ms. Rausa's ovarian	10	duration of exposure with patency.
11	cancer has a 42 percent attribution to talc use?	11	Q. How many years before her diagnosis
12	A. Yes.	12	were her tubes tied?
13	Q. Is that notwithstanding her tubal	13	A. Let me go to my report here. I'm
14	ligation?	14	sorry, I had Newsome's report here. Sorry.
15	A. I accounted for that in my calculation	15	Q. Asher, did we mark Ms. Rausa's report?
16	of how much exposure she had with a patent	16	MR. TRANGLE: We have not, no.
17	reproductive tract.	17	MS. DAVIDSON: Would it be 28?
18	Q. Did you look at literature of women who	18	MR. TRANGLE: No. It would be 29.
19	had tubal ligations and consider that literature in	19	MS. DAVIDSON: Let's mark Ms. Rausa's
20	terms of what that showed about increased risk?	20	report as 29.
21	MS. O'DELL: Object to the form. Can	21	(Exhibit 29 marked for identification.)
22	you be more specific? Vague.	22	MR. TRANGLE: It's in the chat. Want
23	BY MS. DAVIDSON:	23	me to go to it and display it?
24	Q. Doctor?	24	MS. O'DELL: Dr. Clarke-Pearson was
25	A. I'm going to have to ask the reporter	25	asked about this during his last deposition.
	Page 337		Page 339
1	to repeat the question.	1	Page 339  If this is a foundational question,
1 2	to repeat the question.  (The reporter read back the last question.)	1 2	-
	to repeat the question.		If this is a foundational question, certainly he can answer it. But this was explored previously.
2	to repeat the question.  (The reporter read back the last question.)	2	If this is a foundational question, certainly he can answer it. But this was
2 3	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the	2 3	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending?
2 3 4	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware	2 3 4	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a
2 3 4 5	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal	2 3 4 5	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending?
2 3 4 5 6	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your	2 3 4 5 6	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending? BY MS. DAVIDSON: Q. Uh-huh. There is, indeed. A. Can I have it read back to me, please.
2 3 4 5 6 7	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your opinion in the break that Ms. Rausa is now at a	2 3 4 5 6 7	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending? BY MS. DAVIDSON: Q. Uh-huh. There is, indeed.
2 3 4 5 6 7 8	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your opinion in the break that Ms. Rausa is now at a 42 percent increased risk, did you consider her	2 3 4 5 6 7 8	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending? BY MS. DAVIDSON: Q. Uh-huh. There is, indeed. A. Can I have it read back to me, please.
2 3 4 5 6 7 8 9	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your opinion in the break that Ms. Rausa is now at a 42 percent increased risk, did you consider her tubal ligation in that ten-minute period?	2 3 4 5 6 7 8 9	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending? BY MS. DAVIDSON: Q. Uh-huh. There is, indeed. A. Can I have it read back to me, please. MS. DAVIDSON: Of course. (The reporter read back the last question.) THE WITNESS: Okay. So to answer that
2 3 4 5 6 7 8 9 10	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your opinion in the break that Ms. Rausa is now at a 42 percent increased risk, did you consider her tubal ligation in that ten-minute period?  MS. O'DELL: Object to the form.	2 3 4 5 6 7 8 9	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending? BY MS. DAVIDSON: Q. Uh-huh. There is, indeed. A. Can I have it read back to me, please. MS. DAVIDSON: Of course. (The reporter read back the last question.)  THE WITNESS: Okay. So to answer that question, she had her tubes tied in 1988 and
2 3 4 5 6 7 8 9 10 11	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your opinion in the break that Ms. Rausa is now at a 42 percent increased risk, did you consider her tubal ligation in that ten-minute period?	2 3 4 5 6 7 8 9 10 11 12 13	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending?  BY MS. DAVIDSON: Q. Uh-huh. There is, indeed. A. Can I have it read back to me, please. MS. DAVIDSON: Of course.  (The reporter read back the last question.)  THE WITNESS: Okay. So to answer that question, she had her tubes tied in 1988 and she had her ovarian cancer diagnosed in May
2 3 4 5 6 7 8 9 10 11 12	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your opinion in the break that Ms. Rausa is now at a 42 percent increased risk, did you consider her tubal ligation in that ten-minute period?  MS. O'DELL: Object to the form.	2 3 4 5 6 7 8 9 10 11 12	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending?  BY MS. DAVIDSON: Q. Uh-huh. There is, indeed. A. Can I have it read back to me, please. MS. DAVIDSON: Of course.  (The reporter read back the last question.)  THE WITNESS: Okay. So to answer that question, she had her tubes tied in 1988 and she had her ovarian cancer diagnosed in May of 2018.
2 3 4 5 6 7 8 9 10 11 12 13	to repeat the question.  (The reporter read back the last question.)  A. So the literature demonstrates the tubal ligation reduces the risk. But I'm not aware of the literature that talks about the tubal ligation plus the duration of exposure that Mrs. Rausa had.  Q. So when you when you formulated your opinion in the break that Ms. Rausa is now at a 42 percent increased risk, did you consider her tubal ligation in that ten-minute period?  MS. O'DELL: Object to the form.  Misstates his testimony. Asked and	2 3 4 5 6 7 8 9 10 11 12 13	If this is a foundational question, certainly he can answer it. But this was explored previously.  THE WITNESS: I'm sorry. Is there a question pending?  BY MS. DAVIDSON: Q. Uh-huh. There is, indeed. A. Can I have it read back to me, please. MS. DAVIDSON: Of course. Q. You were asked some questions about latency and your opinions about latency. And I would direct you to page 13. Doctor --

A. Of my report?

Q. Of your report. Dr. Clarke-Pearson, your report. And specifically to the temporality section of your Bradford Hill analysis. Do you see that?

A. Yes, I do.

Q. And do you stand by and always beenyour opinion that latency can extend over decades?

12 A. Yes.

Q. And what's the reference that you cite there?

A. Nadler and Zurbenko 2014.

Q. And is your statement in your report consistent with your testimony today that latency acan be 30 years or greater?

A. Yes.

Q. And, Doctor, in relation to you were
 asked some questions about -- I believe it was

22 Ms. Rausa -- let me --

23 Actually, it was Ms. Newsome's.

A. Okay.

Q. Yeah. On page 17 of your report for --

methodology you used to reach your opinions
 regarding specific causation, is that methodology a

3 methodology that would be generally accepted in --

4 in among ovarian cancer specialists like yourself?

A. I guess I would use the term "created a differential diagnosis." So going through the possibilities, if you will, consider all the possibilities and then ranking them into what's most likely to happen. If it's making a diagnosis, what the most likely diagnosis is. In this case,

what are the likely things that contributed to these women developing ovarian cancer.

Q. In each of those cases -- (Zoom audio interference.)

In reaching your case specific opinions in each of these individual cases, did you conduct a differential diagnosis?

A. As much information as I can gather from medical records, depositions, patient's own statement, putting all that information together and coming up with a differential diagnosis.

Q. And is the process -- I think you said this, but I just want to make the record clear. Is the process of employing differential diagnosis, is that methodology generally accepted as in among GYN

Page 373

in relation to Ms. Newsome's case, I think you mentioned that you had reviewed records from her June 9, 2023, record in updating your report.

Do you recall that?

A. Yes, I have that listed in my report.

Q. And looking at the paragraph above, did you review other records that were, you know, really they were documentations of visits since your 2021 deposition?

A. Yes. I list several interactions

didn't go on at any length to describe what those visits were about. They were all basically,

Q. And for each of these women, did you consider all of the risk factors that are currently accepted in relation to ovarian cancer?

A. I believe I did. I listed them separately in each one of the reports.

Q. In relation to -- you were asked a lot of questions about your methodology. In your methodology in considering the risk factors for each of these individual --

each of these in A. Yes.

Q. -- women. Is the process and the

1 oncology?

A. Yes. I mean, you start with all the
possibilities and then try to focus and establish a
diagnosis.

Q. Okay. You were asked a number of questions that earlier talking about the number of mutations needed in order to form cancer, and you were particularly directed back to your deposition from August of 2021. Give me just a moment to turn there.

Doctor, you were on page 454 and 455,

you gave the following testimony. "So then we can say, and we said yesterday it's multifactorial cancer. It's not just one cause. It's many causes that can add up and it requires five to ten mutations based on what the cancer scientists tell us. You can at least start to see those things that do cause mutations. And we know that mutations of BRCA, for example, are -- put that patient at high risk, but not everybody with BRCA mutation develops ovarian cancer. So other

mutations happened on that top of that inherited to ultimately have that patient develop ovarian

24 cancer."

Is that your -- that's the testimony

Page 375

Page 376 ou gave that day. Do you stand by that testimony? A. Yes, that's what I believe. Yes. Q. And is that consistent with the estimony you gave earlier today? A. Yes. Q. And based on your opinion that multiple isk factors can work together or different nvironmental exposures can work together to cause varian cancer, is it your opinion that those hings can work synergistically? A. Yes. I mean, I think that I inderstand that from other oncology points of erspectives. Other so they can be additive or ynergistic, another way for me to put it. Q. Would you use the terms "additive" or synergistic" sort of interchangeably in that ontext? A. I think they're slightly different from ach other. You know, that there can be additive me thing on top of another. They don't interact with each other. But they ended up with the nutations we need to have to have a cancer. And then I think there are some things that do ynergize each other, make that risk factor,	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Page 378  FURTHER EXAMINATION  BY MS. DAVIDSON:  Q. Dr. Clarke-Pearson, Ms. O'Dell asked you about something about the latency period in the Chang paper. Do you know what it was?  MS. O'DELL: I didn't ask about the latency period in the Chang paper.  THE WITNESS: The paper you're talking about the paper I referenced in my report?  BY MS. DAVIDSON:  Q. The Chang paper we talked about today.  You mentioned a latency period in the Chang paper MS. O'DELL: I did not mention that.  I so if there's something you want him to look at, happy to have him answer the question, but I did not mention latency.  BY MS. DAVIDSON:  Q. Dr. Chang [sic], did you testify in response to Ms. Leigh's questions about what the latency period was in the Chang paper?
A. Yes, that's what I believe. Yes. Q. And is that consistent with the estimony you gave earlier today? A. Yes. Q. And based on your opinion that multiple isk factors can work together or different invironmental exposures can work together to cause warian cancer, is it your opinion that those mings can work synergistically? 1	Q and tale?	1	Before I question about I have one			
2	MS. O'DELL: Object to form.	2	question about it. I just wanted to go back to my			
3	THE WITNESS: For ovarian cancer,	3	notes. I think that Leigh was going to			
4	you're specifically talking about?	4	Dr. Clarke-Pearson and Leigh were going to get back			
5	BY MS. DAVIDSON:	5	to me on what was the basis for			
6	Q. Yeah. That's	6	Dr. Clarke-Pearson's note that Ms. Newsome had a			
7	A. Not that I recall.	7	28.5 BMI because I couldn't find it in the records.			
8	Q. Are you planning to go back and are	8	And, also, you were going to get me			
9	you planning to go back and clarify Ms. Newsome's	9	Dr. Clarke-Pearson's notes on the studies.			
10	BMI?	10				
11	A. Yes, I have a note to myself to do	11	over the course of the deposition because you			
12	that.	12				
13		13				
	MS. DAVIDSON: Leigh, do you have any other questions?		S			
14 15	<u> </u>	14	reliance list. So I think everything else was			
	MS. O'DELL: I have one question	15	addressed that we were following up on.			
16	actually or two questions maybe. Are you	16	So let's just cover this and then I			
17	finished?	17	think we can all go home, and I hope you make your			
18	MS. DAVIDSON: Go ahead.	18	flight, Leigh.			
19	FURTHER EXAMINATION	19	In the results, the authors state,			
20	BY MS. O'DELL:	20	"Overall, we did not find any statistically			
21	Q. Dr. Clarke-Pearson, did you review	21	significant interactions between endometriosis and			
22	the you reviewed the Phung paper in preparation	22	the ten ovarian cancer risk factors considered in			
23	for your opinions in this case?	23	our analysis. Do you see that, Dr. Clarke-Pearson?			
24	A. Yes.	24	A. Yes.			
25	Q. And does the Phung paper report on	25	Q. And one of those ten ovarian cancer			
	Page 389		Page 391			
1	endometriosis and talc?	1	risk factors they considered was talc; right?			
2	A. Yes. In patients with endometriosis	2	A. Yes.			
3	and tale had higher incidence of ovarian cancer.	3	Q. So the authors did not believe there			
4	That would be another synergism, if you will, or	4	was a statistically significant interaction between			
5	additive effect based on an inflammatory response.	5	endometriosis and talc use; right?			
6	FURTHER EXAMINATION	6	MS. O'DELL: Object to form.			
7	BY MS. DAVIDSON:	7	THE WITNESS: Yes. That's what they			
8	Q. Was that statistically significant? Do	8	say.			
9	you recall?	9	BY MS. DAVIDSON:			
10	A. I can pull the paper out. I have it in	10	Q. Do you disagree with them?			
11	my stack here.	11	A. No. I see on Table 2, their P for			
12	Q. I can't recall if we discussed that in	12	interaction is .2.			
13	January, to be honest.	13	Q. So you agree with them?			
14	A. So the relative risk without	14	A. Yes.			
15	endometriosis is 1.12 with the confidence interval,	15	MS. DAVIDSON: Okay. I got no more			
16	it doesn't overlap 1. And with endometriosis and	16	questions.			
17	talc, it was 1.38 with the confidence interval, it	17	MS. O'DELL: Nothing further.			
18	doesn't overlap 1.	18				
19	MS. DAVIDSON: Can we go off the record	19	(Read and sign reserved.)			
20	for a minute.	20	- · · ·			
	(Recess taken from 1:56 p.m. until 1:58 p.m.)	21	(Time noted at 2:01 p.m.)			
21		22	· · · · · · · · · · · · · · · · · · ·			
21 22	BY MS. DAVIDSON:	22				
		23				
22	Q. We pulled up Phung, which is Exhibit 12. Thank you, Leigh, who has a way better	23
